

## QuIP Coding and Analysis Accreditation

Bath SDR and Causal Map offer a joint additional accreditation for anyone who has completed the QuIP Lead Evaluator training course and accreditation. This is useful for anyone planning to use the QuIP approach to coding and analysis in their own work.

The course is only available to individuals who have already completed the theoretical and practical introduction to coding in the Lead Evaluator course, and have received **Lead Evaluator accreditation**. You can then choose to do either or both of the following mentored modules. We offer a significant discount for a combined package; £600+VAT rather than the combined price of £890.

### QuIP Coding & Analysis Accreditation

You will be given access to a file in Causal Map which has 12 interview responses to a real QuIP study, along with background information\*. You can complete this in your own time, with support from Bath SDR on coding.

Once you have finished the file will be assessed by a member of the team and you will be provided with a round of feedback. You will have the opportunity to book a video call to review the analysis dashboard and discuss how the results can be used for reporting. The cost for this additional training is £400+VAT, to cover the time Bath SDR staff will spend on personalised feedback. You will not gain 'alumni' status to Causal Map software if you complete this course separately.

### Causal Map Launch Package

Subscription to Causal Map starts with a Launch Package, following which you gain access to a range of subscription options, including free access for small projects. This package offers a mentored introduction to the software, priced at £490. This includes access to Advanced features in the app, up to 4 scheduled chat sessions and unlimited coding for two months. This is the perfect start to your coding journey in Causal Map, particularly if you have a project ready to go. This package alone does not include support from Bath SDR with coding. For more details on packages, please see [causalmap.app/pricing](https://causalmap.app/pricing)

Courses are run throughout the year, subject to the availability of our experienced coding assessors. If you would like to take up the joint QuIP & Causal Map accreditation, please contact [fiona@bathcdr.org](mailto:fiona@bathcdr.org). For all Causal Map enquiries, please contact [hello@causalmap.app](mailto:hello@causalmap.app)

*\* The data to be coded will be provided by Bath SDR, this course does not accommodate participants providing coded data from other projects. Bath SDR can provide support on coding of other data as part of a separate consultancy arrangement, in conjunction with a Causal Map subscription.*
